

What is the direct distance between the **trash bin** and the **toilet** (in meters)?

W/O QA-RP, W/O CoT-VC

2.7

GT

3.5

Ours

Let me estimate the distance.

Primary trash bin:

- **trash bin**: center = $(-3.7, 1.0, 0.3)$ m, dimensions = $0.4 \times 0.4 \times 0.3$ m

Primary toilet:

- **toilet**: center = $(0.0, 0.0, 1.6)$ m, dimensions = $0.7 \times 0.4 \times 0.4$ m

Center distance = 4.0 m

Radius adjustment = 0.2 m + 0.2 m

Closest-point distance = 3.6 m

<reliability: HIGH>

Final answer: 3.6
